

Down the Do-Re-Mi

It's a sunny day and the sky is blue
All the birds are singing... (whistle)
Won't you follow me down the do-re-mi

With a joyful noise and a happy sound
When you sing a song it travels all the world around
Oh, won't you follow me down the do-re-mi

First you take a couple notes
And you add a little beat
String 'em in a line
And you've got a melody

Step right up, if you please
Just let your heart go sailing on the breeze
Oh, won't you follow me down the do-re-mi

Do-do Don't you love the way heart
Re-re Raises up each time you sing
Mi-mi When me and you sing together
I start to see the harmony in everything

It's a sunny day and the sky is blue
All the birds are singing... (whistle)
Won't you follow me down the do-re-mi
Won't you follow me down the do-re-mi
(scat)
