

## Me And The Morning

---

Me and the morning... the morning and me  
Slip out of bed so quietly  
The only sound is my feet on the floor  
As I pitter patter to the bedroom door  
It's just me and the morning... the morning and me  
Everyone else is fast asleep  
Even my little brother is not yet awake  
He's always up first but... not today

### ***Chorus***

**It's just me and the morning  
The morning and me  
Everything's quiet  
And clear as can be**

Me and the morning go up to the glass  
And look out the window at the sparkling grass  
Each and every blade has a dewdrop that shines  
And no other eyes see this world but mine

### ***Chorus***

Me and the morning... the morning and me  
Slip out of bed so quietly  
The only sound is my feet on the floor  
As I pitter patter to the bedroom door  
It's just me and the morning... the morning and me  
Everyone else is fast asleep  
Even my little brother is not yet awake  
He's always up first but... not today
