

Pop On My Lid

I have a bucket shining bright

It's where I keep my love and my light

If someone comes a dipping, it's not right

I just pop on my lid and hold it tight

And I know they don't mean what they say

It's their empty bucket that makes them that way...

I have a bucket shining bright

It's where I keep my love and my light

If someone comes a dipping it's not right

I just pop on my lid, pop on my lid, pop on my lid and hold it tight
