

Respect

Chorus

If I respect you – and you respect me
And we respect each other
What a world this will be
You'll be glad I'm me – and I'll be glad you're you
'Cause that's just what folks who respect each other do.

If you let me talk till I'm finished
And I listen when you speak your mind
And we choose our words carefully
We'll hear each other differently
It's one more way respect can be defined.

Chorus

When I don't dis what you do
And you let me be who I am
And we don't label anyone
Or pick on others just for fun
We show respect's a word we understand.

Chorus

'Cause that's just what folks, just what folks
Just what folks who respect each other do.
