

Time Together

Be with me, let's take some time
And have it be just yours and mine
Without a push, without a worry
No where to rush, no where to hurry

Chorus:

**'Cause I need you and you need me
And we need time together
It's as simple as the air we breathe
We need time together**

Sit with me and let's stay home
One whole day, all alone
Tell our stories, sing our songs
Just let the whole world run along

(Chorus)

Let's take today, tomorrow too
It doesn't matter what we do
'Cause every minute, every hour
Can open up just like a Flower

(Chorus)
